INVITATION TO PARTICIPATE IN THE WRG-PH GLOBAL CIRCUIT ONLINE 2026

1. The Data Science and Technology Corporation, with the support from Puzzlebox 3D Printing Solutions, World Robot Games International Committee, and the Philippine Robotics Team invites students to join the WRG-PH Global Circuit Online 2026, an international, multi-event online robotics competition.
2. The WRG-PH Global Circuit enables students, teams, and educators to experience authentic WRG competition formats, maximize skill development without the financial and logistical burdens of travel, accommodation, or physical venue constraints, and prepare strategically for World Robot Games Japan in December 2026. Further details of the competition can be found in the enclosed letter from the organizer.
3. Participation to the competition is voluntary and shall adhere to the "Non-disruption of Classes Policy of the Department." All expenses related to participation in the competition shall be borne by the participant and charged to personal funds.
4. For immediate dissemination.

WRG-PH GLOBAL CIRCUIT ONLINE 2026

"Road to WRG Japan 2026"

January 12, 2026

Regional Director MARIA INES C. ASUNCION

DepEd Region XIII – CARAGA

Km. 3, Libertad St. Butuan City

Dear **Regional Director Asuncion:**

We respectfully invite the DepEd Region XIII school robotics teams, students and teachers to participate in the **WRG-PH Global Circuit Online 2026**, an international, multi-event online robotics competition organized under the World Robot Games Philippines (WRG-PH), through the Data Science and Technology Corporation, with the support from Puzzlebox 3D Printing Solutions, World Robot Games International Committee, and the Philippine Robotics Team.

WRG-PH Global Circuit is an online, multi-event robotics competition designed as an online extension of the World Robot Games PH (WRG-PH). It brings together a curated series of WRG robotics challenges into a marathon-style online circuit, providing participants worldwide with the opportunity to compete at their own pace, on their own available time, while learning and progressively refining their skills in a comfortable and familiar environment.

The WRG-PH Global Circuit enables students, teams, and educators to experience authentic WRG competition formats, maximize skill development without the financial and logistical burdens of travel, accommodation, or physical venue constraints, and prepare strategically for **World Robot Games Japan** in December 2026.

In addition, the robot games are open to the use of any robot kit and any robotics programming platform, allowing schools to participate using their existing resources and preferred technologies.

To support participating schools and educators, official training and game demonstration videos are available for free through the WRG YouTube Channel (<https://www.youtube.com/@WRG-RobotGames/videos>). In addition, free online consultation and orientation training sessions for registered participants will be conducted during February and March, providing guidance on rules, technical requirements, and competition procedures.

Interested participants may register or learn more about the event through the event page: <https://tinyurl.com/WRGPH-GlobalCircuit2026>. They may also request additional information by sending an email to philippineroboticsteam@gmail.com or contact the undersigned at 09603190834.

We respectfully seek your support in encouraging schools, educators, and learners to participate in this international robotics competition and benefit from its accessibility, educational value, and global recognition.

Sincerely,

Pinky B. Legaspi
