MECHANICS FOR THE RAP & BEATBOX CONTEXT

CONTEST THEME: **"We Make Change Work for Women", in line with the 2020 Women's Month Celebration.**

MECHANICS/GUIDELINES:

1. **RAP** is a type of music in which the words are not sung but are spoken in a rapid, rhythmic way and **Beatbox** is a style of music which use one's mouth and voice to make sounds like a drum machine. Although it is not limited to hip-hop music, both are performance art that are word based. Beatboxing is a completely organic art form, not powered by an outside tool or extension. It comes from within and from the performer's own style, perfect timber, skills needed to make the music that one wants. It's the purest form of self-expression. Rap & Beatboxing styles are influenced by cultures, languages, and musical tastes. It respects the past, and pushes the human race forward by challenging the capabilities of the human body.
