Attention: **REGIONAL SPED SUPERVISOR**

Dear Mr. Bringas,

Greetings from Resources for the Blind, Inc.

As an institution advocating for quality education and placement for the visually impaired, we have been facing the reality that these students have been kept out of Science, Technology and Math classes (STEM). This problem can be attributed to several reasons predominantly on access to materials and the shortage of teachers trained to teach these disciplines.

For this purpose, our office in partnership with the International Council for the Education of People with Visual Impairment (ICEVI), will hold a **3-day on - line STEM Training** on September 16 – 18, 2020. Registration of the said training is free. It aims to equip Math receiving and resource teachers on the strategies, technologies, instructional materials and other resources vital in teaching to make the curriculum accessible for students with visual impairment.

With this, may we invite two (2) Senior High School Math teachers to attend the training. We will be giving a training certificates and tactile materials for the school. Attached is the list of target schools.

For confirmation and inquiries please contact Resources for the Blind, Inc. at (082) 322-3142/ 0998 – 963-9049 and look for **Ms. Evelyn Julsen** between 8:00A.M. to 5:00PM from Monday thru Friday.

Thank you very much. Looking forward to hearing from you.

Sincerely,

GINA S. PANULDE

Branch Director

Resources for the Blind, Inc.
