DCC No. DepEdRO13-F-REC-008/R3/2-18-2020

Good day!

CALLING ALL RDC-RDIC Members!

We are pleased to announce to you that NRCP in collaboration with the DOST Regional Offices (X, XI and XIII) of Mindanao Cluster I has launched a new project entitled, "Frontier Research Agenda and Capability Building of Researchers in Mindanao Cluster I: NRCP Science and Technology Expert's Pool (N-STEP)" under the Support to the Promotion of a Science Culture on Basic Research in the Regions for Global Competitiveness Program. The N-STEP will provide the avenue for Researchers, Scientists and Engineers (RSEs) to get engaged in providing the scientific evidence for policy making and program designs on concerns that are of priority interests as identified by the Regional Development Council and the regional DOST. Likewise, it will encourage HEIs and SUCs to further incentivize local experts who are able to level up in their research undertakings and enrich their outputs in terms of publications and other forms of knowledge creation/generation and utilization.

In view of this, we are now accepting Basic R&D Proposals for 2020-2021. The RSEs are encouraged to submit proposals under the priority areas identified in the National Integrated Basic R&D Agenda (NIBRA) 2017-2022 and Regional R&D Agenda of Region X, XI and XIII.

Attached herein are the materials and requirements for this Call for Proposals: <https://bit.ly/3gDXDjl>.

Please see the attached infographics for more details.

Very truly yours,

NOLE KRISTOFFER L. LAGANGA
RDC-RDIC Coordinator
DOST-Caraga
