Office of the Director

MEMORANDUM

FOR : **JOHN ARNOLD S. SIENA**
Director IV, National Educators' Academy of the
Philippines

ALL REGIONAL DIRECTORS

THRU : **JESUS L.R. MATEO**
Undersecretary for Planning, Human Resources and
Organizational Development

FROM : **MARGARITA CONSOLACION C. BALLESTEROS**
Director IV

SUBJECT : **Request for Nomination to the Online Seminars
Organized by the Ministry of Commerce of China
(MOFCOM)**

DATE : 15 March 2021

This is in reference to the communication from the Department of Foreign Affairs regarding the request for nomination to the Online Seminars Organized by the Ministry of Commerce of China (MOFCOM).

The DFA conveys the invitation of the Economic and Commercial Office of the Mission of China to ASEAN in Jakarta to participate in the online seminars organized by the Ministry of Commerce of China (MOFCOM). The seminars are not ASEAN-China activities.

In this regard, we would like to request for your assistance in disseminating information on the program. The attached information paper contains details on the coverage of the scholarship, eligibility criteria, application procedures, and other pertinent information. Likewise, enclosed is the list of universities and programs participating in MOFCOM's Academic Education Program for 2021.

All interested participants and regional nominees must be indicated in the nominees' list and sent to ico@deped.gov.ph **on or before 18 March 2021** for consolidation and submission to Undersecretary Mateo and the organizers.

For further queries/concerns on the matter, kindly contact the International Cooperation Office (ICO) through email at ico@deped.gov.ph.

Thank you very much.

About the Organizer	Hunan Children's Hospital is a comprehensive and specialized children's hospital which integrates clinical, scientific research and teaching. It became the first batch of Third Grade Class A hospital in China upon comprehensive review in 1995 and passed two certifications of ISO9001 International Standard for Quality Management System and ISO14001 Environment Management System in 2004. From 2013 to 2015, the international management standard of US JCI was fully implemented in the Hospital. Driven by internationalization and innovation, the Hospital has strengthened cooperation and exchange with an open and positive attitude, established an independent Foreign Affairs Management Department. It is the Key International Pediatric Medical Center approved by Hunan Provincial Health Commission. As the only Foreign-aid Paediatric Medical Training Unit in China, the Hospital is the China-aid Medical Training Base in Hunan Province, and training base for Maternal & Child health for Belt and Road countries. Since 2006, 88 China aid training projects have been carried out, with over 2,600 trainees from more than 100 countries and regions. The training includes over 10 topics such as paediatric severe disease, neonatal medicine, paediatric care technology, maternal and child health care, laboratory techniques, traditional Chinese medicine and hospital management. English, French, Portuguese, Russian and other languages are used for teaching. In 2016, the Hospital undertook two China-aid innovative projects of Maternal and Infant Health Project in Sierra Leone and Cambodia. The Projects aimed at offering paediatric appropriate technologies to 200 local medical workers, ward rounds and free consultation for over 200 local children. In 2017 and 2018, the Hospital sent medical experts to Zanzibar and Fiji to organize overseas training projects on hospital management, paediatric appropriate techniques and paediatric care. It has won praise from Ministry of Health of Zanzibar and Fiji and the local Chinese Embassies. The training project has turned out to successes with good social benefits and international impact, which was given follow-up reports by Hunan Daily, Health Daily, China Daily and local media. To facilitate the teaching of foreign-aid human resources development project, the Hospital has set up its own teacher team, for which the hospital experts and professors have been selected according to classification of professional characteristics, personal expertise, comprehensive management talents and technical personnel, including 3 experts who are awarded with Special Allowance of the State's Council, 20 experts taking positions in National Professional Committees, 30 experts taking positions in Provincial Professional Committees, and more than 100 teachers who have worked or studied abroad. , we appointed the foreign aid training teachers from elite and outstanding experts of the Province's medical and health system so as to constantly expand the teaching staff team,	

	among them are former health officials stationed in WHO, medical and health policy experts, medical reform experts, disease prevention and control experts, maternal and child health experts, paediatrics expert, nursing experts, laboratory medicine experts, traditional Chinese medicine experts and so on. The Hospital attaches great importance to cultivate international talents. There are 20 staff including doctors, nurses, drugs and technicians created a "international medical simultaneous interpretation team" of more than, which provides a good translation guarantee for medical foreign aid teaching. The Hospital has created a good atmosphere of foreign language learning, such as regularly publishing the English internal publication Pediatrics and Adolescent Medicine, ward rounds in English language, English corner activities and English training, etc. In 2017, the Hospital organized translation training which improves the professional level of translators. In addition, to ensure that quality of translation and the effect of the teaching, the International Cooperation And Exchange Department organized the trainees and teachers to carry out the training, lecturers and the translators are required to pass the test in batch, and the translation of the courseware must be examined and proofread before they are used for the class formally. The hospital also specially organized the English teaching competition and other activities to promote the progress of the teaching ability. With the deepening of international cooperation among hospitals, the Hospitals actively responded to the "Belt and Road Initiative" and led the establishment of the "Child Health Cooperation Network of Developing Countries" aimed at improving management of medical services, enhancing exchange and cooperation in the field of medical specialty and technology, improving high-quality personnel training and scientific research cooperation in pediatrics related fields and enhancing the medical service ability and medical service management level of China and developing countries.
Course Content	Commissioned by the Ministry of Commerce of the P. R.C., Training Course on Pediatric Nursing Technologies for Developing Countries will be held by Hunan Children's Hospital. The key curriculum include: General Overlook of China, Infection and Emergency Management of Children's COVID-19, Experience of Treating Severely-ill COVID-19 Patients, Nosocomial Infection & Control, Family Centered Care, Developmental Care of Premature Infant, and Low-Birth Weight Premature Care, Nutritional Support for Neonates, and Common Nursing Operations. Participants thus can have the opportunity to learn China's experience in health management and fighting against coronavirus. The training course will offer the participants cloud visits to the medical industrial zones and enterprises in Hunan province and above, so as to enhance the understanding of China's medical industry development. The participants will also visit Changsha City on live, which could further explore the profound Chinese culture. Generally, through the combination of theory and practice training, the participants will gain a more comprehensive understanding of China, thus contribute to their own countries' health development. The training course will also bridge the exchange and cooperation between China and other developing countries in the field of Pediatrics.

	of malaria, especially the impact of COVID-19 on malaria elimination and response. (6) China's planned immunization strategy and development: mainly introduces China's planned immunization policy, vaccination, clinical trials, and achievement, especially the research progress and vaccination of COVID-19. (7) China's schistosomiasis control and Zanzibar schistosomiasis control pilot projects: mainly introduce the historical process, policies, technical plans, and experience sharing of China's 70 years of schistosomiasis prevention and control; introduce China-WHO-Zanzibar tripartite cooperation Schistosomiasis control project. 2. The overall situation of the presenter (1) Dr. Bao Changjun: Director of the Institute of Acute Infectious Disease Control, Jiangsu CDC, mainly engaged in epidemiological surveillance, field investigation and intervention research of acute and emerging infectious diseases. (2) Ms. Huan Xiping: Director of the Institute of STD and AIDS Prevention, Jiangsu CDC, mainly engaged in endemic disease prevention and control and medical health education. (3) Ms. Zhu Limei: Deputy Director of the Institute of Chronic Infectious Disease Control, Jiangsu CDC, mainly engaged in research on tuberculosis prevention and control. (4) Prof. Gao Qi: Ph.D., researcher, served as the vice chairman of the Asia-Pacific Malaria Elimination Network, and a member of the World Health Organization Global Malaria Policy Advisory Committee. (5) Dr. Cao Jun: Ph.D., researcher, post-doctorate at Johns Hopkins University in the United States, research field: malaria molecular biology and vector control. (6) Dr. Huang Jiayan: Ph.D., professor at the School of Public Health of Fudan University, research field: health policy analysis. (7) Dr. Yang Kun: Ph.D., researcher, leader of China's aid to Zanzibar schistosomiasis control project, research field: Spatial epidemiology of schistosomiasis. 3. During the training, discussion and learning exchanges related to the topic will be arranged. 4. Materials to be prepared by participants In order to facilitate the exchange with Chinese experts, please prepare the communication materials related to the research topics in your country, such as: ① the current status of infectious disease prevention and control and current problems; ② the basis of health cooperation with China, etc.
Notes	1. This training uses the ZOOM platform for online training. 2. During the training, participants are invited to observe training sessions time, attendance records will serve as the basis for issuing a certificate of completion of training. 3. Preparation before training: Enter the ZOOM classroom 15 minutes in advance. Change personal title to First name/Last name-Country style, such as Isabelle Adjani-France. 4. Disciplinary requirements: Please strictly abide by the training course schedule. 5. Participants are required to prepare relevant materials for the seminar according to the schedule, and submit relevant electronic materials as required. 6. Courses are equipped with professional English translation.

About the Organizer	Jiangsu Institute of Parasitic Disease was established in July 1950. It is mainly responsible the prevention and control of schistosomiasis, malaria, filariasis and other parasitic diseases in Jiangsu Province. At the same time, it undertakes the functions of emergency handling, medical foundation and applied technology research, scientific and technological information services, technical training and scientific popularization. The Institute and Jiangnan University School of Medicine jointly established the "Jiangnan University Public Health Research Center", and cooperated with Nanjing Medical University to establish the "Tropical Disease Research Center" to jointly train international students with a master's degree in medicine. In October 2016, the Institute was identified as the "World Health Organization Collaborating Centre for Research and Training on Malaria Elimination " and became a platform for global malaria elimination professional training, academic seminars, and experience exchange. Since 2002, the institute has undertaken the human resources cooperation training project of the Ministry of Commerce. It has undertaken a total of 59 training projects on tropical diseases, malaria, schistosomiasis, and infectious diseases, and trained more than 1,700 health officials and professional technicians from more than 70 developing countries in Asia, Africa, and Latin America. Since 2017, in order to actively implement the China-Africa Public Health Cooperation Plan, the Ministry of Commerce has been entrusted by the Ministry of Commerce to implement the Zanzibar schistosomiasis control technical cooperation project, promote China's experience in schistosomiasis control, and explore related work models for China's public health assistance abroad.
Contact of the Organizer	Contact person: Ke Xuedan (Ms.) / Wang Jie (Ms.) Office Phone: 0086-510-68781012 Cell phone: 0086-15861450271 (KE) / 0086-13771491880 (Wang) Fax: 0086-510-85510263 Email address: kexuedan10@163.com

Project Description

Name	Seminar on ICT Planning, Construction and Development Capability for Developing Countries		
Organizer	Shenzhen Association for Promoting International Economic & Technological Cooperation		
Time	Apr 15th —Apr 28th, 2021	Language	English
Invited Countries	Developing Countries	Number of Participants	25
Training objectives	To enable trainees to gain in-depth understanding of China’s experience in ICT planning and construction, establish a platform for communication with officials of relevant countries, establish a network of domestic and international industry experts, and promote international project cooperation and technological product exports.		
Requirements for the Participants	Professional background	— — Field or specialty: computer, information and communication, Internet-related major. ——Jobs: government officials and technicians in the departments of science and technology, internal affairs, education, transportation, energy, and security. ——Level, academic degree or other relevant qualification requirements: none. ——Working years in related fields: none. ——Priority qualification: none. —other	
	Age	not higher than the legal retirement age of the recipient country.	
	Health	Be able to attend online training courses on time.	
	Language	Capable of listening, speaking, reading and writing in English	
	Others	Be able to use VooV Meeting platform to complete the project schedule.	
Training content introduction	1.Main training courses and content introduction (1) ICT development status and trends-introduce the development history, current forms and development trends of ICT. (2) Digital economy and ICT infrastructure-introduce the national digital economy development strategy, digital transformation and industry innovation, ICT infrastructure planning and construction. (3) Urban brain and smart transportation-introduce how to process the super-large-scale full multi-source traffic data, discover complex hidden laws, global coordination, intelligent scheduling, and improve road operation		

	efficiency. (4) Shenzhen informatization planning and construction status - A comprehensive introduction of Smart City Case - Smart Shenzhen. (5) Shenzhen Smart City Solutions and Operation Mode- Mainly talk about the concept of smart city, smart city solutions, smart city construction and operation mode. (6) Network technology simulation and verification platform and construction-introduce how to design the required network model according to the needs, and understand the various characteristics of the network under different conditions. (7) Application of new generation artificial intelligence technology in Education - Main contents: overview of artificial intelligence technology in China; application of intelligent voice, face recognition, semantic analysis and other technologies in education; application of big data and Internet of things in education. (8) Status, Progress, and Development of e-Government Platforms in China - Introduce the status, progress, and development of e-Government platforms in China, and illustrates how to achieve speed, transparency, accountability while reducing the cost. (9) Safe city planning and construction-talk about the construction of multi-level network monitoring of public security, traffic police, fire protection and the construction of urban emergency communication command system to strengthen urban safety and prevention capabilities. (10) China's education informatization construction-Main contents: development of China's education informatization; current situation and future trend of online course construction; development and application of teaching video, virtual simulation, VR and other information teaching resources; online teaching, hybrid teaching, offline teaching and social practice teaching based on information environment. (11) Top-level design of smart city-tells how to use information and communication technology to sense, analyze, and integrate various key information of the core system of city operation to realize smart city management and operation. (12) Smart city construction and application case demonstration- Building a new smart city based on digital twins and artificial intelligence technology. (13) Technology and Application of Big Data - Data - it's been around (even digitally) for a while. What makes data "big" and where does this big data come from? What launched the big data era? This course is for those new to data science and interested in understanding why the Big Data Era has come to be. It is for those who want to become conversant with the terminology and the core concepts behind big data problems, applications, and systems. (14) Cyber Range-Overview Establish a special test platform to verify the information security system, and share research data with relevant departments to improve the national information security level.
--	--

	(15) Status and Development of Blockchain and Cryptocurrency Industries in China – Introduce the principles of blockchain and corresponding applications, and illustrates the status and development of blockchain and cryptocurrency industries in China. 2. Introduction to online platform A comprehensive comparison found that the overseas version of Tencent Conference has the characteristics of free, large class capacity, simple operation, and the ability to record conference videos throughout the process, which is more suitable for foreign aid online training. 3. The overall situation of the presenter (1) Li Gang: Expert of the Smart City Research Office of the Expert Committee of Shenzhen Municipal Bureau of Industry and Information Technology. (2) Liao Qing: Associate Professor of Harbin Institute of Technology, focusing on big data technology and related fields. (3) Ding Ye: Associate researcher of Fok Yingdong Research Institute of Hong Kong University of Science and Technology, research direction: intelligent transportation, blockchain, etc. (4) Li Chunlin: Senior Lecturer of Education Technology and Information Center of Shenzhen Vocational College. (5) Zhang Yuan: Director of Solution Design and Sales Department of Huashi Intelligent Co., Ltd. 4. Materials to be prepared by trainees Before the project starts, please contact the organizer in advance, familiarize yourself with VooV Meeting platform software, and do a good job in network testing. In order to facilitate communication with Chinese experts, please prepare your country's communication materials related to the subject of the training, such as: ①Introduction of the professional and the unit's self-introduction ②The current status of ICT planning, construction and development in each country and existing problems; ③Other countries Status of international cooperation with international organizations in the country; ④The basis of cooperation with China, etc. 5. Final test/assessment In the form of test questions or essays.
Host City	Shenzhen, Guangdong Province
Notes	1. Responsibilities and obligations: The trainees are representatives of the government, country and people of the country where they are located. They are responsible for their actions and performance, abide by Chinese laws and relevant regulations of the training class, and perform corresponding obligations. 2. Disciplinary requirements: during the implementation of the project, please strictly abide by the project schedule, do not arrange activities unrelated to the training without authorization, do not withdraw from the training without any reason.

About the Organizer	The Shenzhen Association for the Promotion of Foreign Economic and Technical Cooperation (referred to as the Promotion Association) was established in October 2003. It is a social organization sponsored by the Shenzhen Municipal Bureau of Commerce. It aims to cooperate with the country's "going out" strategy, guide and help Shenzhen enterprises to explore foreign markets and promote Shenzhen's foreign economic and technological cooperation and exchanges. The Promotion Association has a solid foundation in high-tech fields such as computer and information communication technology. It is good at various training in these fields. It has successfully undertaken many foreign aid training tasks entrusted by the Ministry of Commerce. So far, it has undertaken more than 100 sessions of electronic information technology. In terms of foreign aid training courses, more than 3,000 government officials and technical personnel have been trained for developing countries, and they have rich experience in the organization and management of foreign aid training. Through years of self-accumulation and close cooperation with Huawei, ZTE and other member units, it has a computer room of hundreds of square meters, two comprehensive laboratories, and a variety of computer equipment. It also has a group of experts in the field of ICT planning and construction. A team of experts with training and teaching experience. In recent years, our institute has successively organized the "2017 Seminar on Improving ICT Planning and Building Capacity in African Countries", "2018 Seminar on Improving ICT Planning and Building Capacity in African Countries", "2019 Seminar on ICT Planning and Development Capability", etc. The foreign aid training program introduced the great achievements of China's ICT planning, construction and development since the reform and opening up, and promoted the development of information technology in the recipient countries, which won high praise from the trainees. The Promotion Association has long-term cooperative relationships with many Shenzhen ICT companies; it can provide high-quality industry teacher resources and visits for foreign aid training.
Contact of the Organizer	Contact 1: Huang Wei (Mr.) Office Tel: 0086-0755-83106133 Mobile phone: 0086-18923716306; WeChat ID: HW694176929; QQ number: 694176929 Contact 2: Bao Ting (Ms.) Mobile phone: 0086-13537638721; WeChat ID: 13537638721; QQ number: 547124607 Email address: apietc2017@vip.sina.com

Seminar on Biogas Promotion and Management for Developing Countries

Project Profile

Name	Seminar on Biogas Promotion and Management for Developing Countries		
Organizer	Biogas Institute of Ministry of Agriculture and Rural Affairs (BIOMA), P.R. China		
Date	April 13 to 30, 2021	Language	English
Countries Invited	Developing countries.	Planned Number of Participants	25 in total
Training Objectives	1. To enable participants to understand China’s Belt and Road Initiative, the current status and future development of China’s biogas technology, biogas related policies and regulations, and biogas standardization systems and classifications; 2. To enable participants to have a preliminary understanding of the design and construction of household biogas digesters in rural China, the design of large and medium biogas plants, and the operation and management of large and medium biogas plants; 3. To enable participants to have a preliminary understanding of China’s experience on developing human living environment in rural areas and the technical models of improving human living environment in rural China; 4. At the end of the seminar, participants can put forward development suggestions in their corresponding fields in their home countries based on the content they have learned and with consideration of the industry situations in their own countries.		
Requirements for Participants	Professional Background	Officials and technicians engaged in the research, production, promotion and management of energy, environment and agriculture.	
	Age	Under the legal retirement age of the participant’s home country	
	Health Status	In good health; able to participate in online seminar on time	
	Language Competence	Able to understand, speak, read and write in English	
	Others	Participants should prepare a country report on renewable energies before the seminar starts.	
Seminar Content	1. Introduction of the main training subjects and content The seminar will discuss the promotion and management of biogas in developing countries with participant officials through lectures, symposiums, cloud visits, cloud cultural experience and other forms. (1) China's Basic National Conditions -- introduces China’s politics, society, history, traditional culture, etc. (2) Overview of the Belt and Road Initiative – introduces the background of Belt and Road, its principle of achieving shared growth through collaboration, its significance, the Belt and Road Forum and international cooperation. (3) Status quo and Development of Biogas Technology in China – introduces the development history, models and support mechanism of China’s biogas.		

	(4) Key Technologies on Using Straw as a Resource – introduces key technologies for the utilization of straws such as biogas, fuel ethanol, fertilizer, and feed. (5) Design of China’s Large and Medium Biogas Plants – introduces the process calculation of large and medium biogas plants, the design of each process unit, the selection of main equipment, site selection and layout, etc. (6) Quality Supervision Standards for Biogas Technology in China – introduces relevant quality standards and specifications for biogas products, equipment and household biogas. (7) Design and Construction of Rural Household Biogas Digesters -- introduces the operation principles and technology of household biogas digesters, as well as the design and construction of household biogas digesters. (8) Operation and Management of China’s Large and Medium Biogas Plants -- introduces the operation and management of large and medium biogas plants, as well as their role strategies in regional energy supply and agricultural core links. (9) Technology and Model of Rural Human Living Environment Management -- introduces the development, main technologies and products of China's rural human living environment improvement. (10) Biogas Power Generation Technology -- introduces the latest policy status, development trend, technological progress and application of biogas power generation. (11) Disposal of Solid and Liquid Digestate and its Environmental Benefits -- introduces the basic characteristics, utilization methods and environmental impact of biogas digestate. (12) Practice and Experience of China’s Rural Living Environment -- introduces the achievements and experience of China's rural human living environment management. The seminar will take participants to cloud visit the Yongan Biogas Cooperative in Shuangliu district of Chengdu, the New Countryside Development of Shuangliu district of Chengdu, the workshops of Chengdu Shunmei International Trade Co., Ltd., the Rural Centralized Gas Supply Biogas Plant in Deyang, the Comprehensive Laboratory of BIOMA, and the Key Laboratory of Development and Application of Rural Renewable Energy, Ministry of Agriculture and Rural Affairs of China. Participants will also be arranged to cloud visit Badaling Great Wall, Forbidden City, Chengdu Research Base of Giant Panda Breeding, and Dujiangyan Water Conservancy Project in Sichuan, etc. Participants can experience the world's natural and cultural heritage and the development achievements of China's reform and opening up. The seminar will also arrange online exchanges for participants and experts, including “Symposium on Biogas Technology and Promotion Management ”, "Mid-term Summary and Q&A of the Seminar", " Summary and Exchange Meeting of the Seminar", etc. Through the Seminar, participants will get the general picture of biogas technology and development in China, realize that biogas development can change rural living environment and understand the significance of biogas in the development of new countryside, so the seminar can provide reference on biogas development and promotion for the recipient countries and promote exchanges and cooperation between China and other developing countries in the field of biogas. 2. Overview of lecturers This seminar invites 11 lecturers and all of them have senior professional titles. Most of them are experts in biology, environmental science, environmental engineering or rural economic policy and have rich experience in teaching international classes. (1) LUO Ximin: Director, BIOMA (2) DENG Liangwei: Professor, Chief Engineer, BIOMA
--	--

	(3) HE Mingxiong: Professor, BIOMA (4) ZHANG Mingming: Professor, BIOMA (5) WANG Wenguo: Professor, BIOMA (6) LEI Yunhui: Professor, BIOMA (7) ZHANG Bei: Associate Professor, BIOMA (8) PAN Ke: Senior Engineer, BIOMA (9) HE Li: Senior Engineer, BIOMA (10) LIU Yi: Associate Professor, BIOMA (11) LUO Tao: Associate Professor, BIOMA 3. Seminar completion assessment: Participants should submit a country report after the training.		
Site of Seminar	Chengdu city, Sichuan province	Cities to Visit	Beijing, Dujiangyan city and Deyang city of Sichuan province
Notes	1. This seminar uses ZOOM for online training. Participants need to have access to the Internet, a computer, a microphone, a camera and other equipment. 2. During the seminar, participants are requested to abide by class time and teaching disciplines. Seminar completion certificates will be issued on the basis of attendance records. 3. Preparation before class: participants should enter the classroom 10 minutes in advance to prepare for class and change the personal title to English name (consistent with passport) - country name style. During the class, participants' microphones are set to mute by the host. While preparing for the class, participants need to turn on the video for the host to see. 4. Disciplinary requirements: Throughout the seminar, participants should strictly abide by the seminar schedule and should not withdraw from the seminar without reason. 5. Information security: In order to protect information security and personal privacy, participants should not record, take screenshots or share to any social media during class. 6. Participants should prepare relevant materials for symposiums according to the schedule and submit relevant electronic materials as required. 7. Online consecutive English interpretation is provided.		
About the Organizer	Founded in 1979, Biogas Institute of Ministry of Agriculture and Rural Affairs (BIOMA), P.R. China is mainly responsible for the basic and applied research, frontier technology research, major key generic technology research, other public welfare research and the technical extension and trainings in biogas and other rural renewable energies, rural environmental treatment and the cross field of agro-ecological restoration. BIOMA has been committed to actively promoting knowledge dissemination and technology transfer in related fields through trainings, demonstration projects and cooperative research. In 1981, upon the agreement between Chinese government and UNDP, the Asia-Pacific Biogas Research and Training Center (BRTC) in Chengdu of China was established at BIOMA. In April 2010, BIOMA was approved to set the "Professional identification station for special types of work in agricultural industry". In 2012, BIOMA became the "International Science and Technology Cooperation Base for Biogas Technology Base in Sichuan province". In 2014, FAO designated BIOMA as "FAO Reference Center for Biogas Research and Training". In 2016, BIOMA became the "International Science and Technology Cooperation Base for Biogas Technology of Ministry of Science and Technology". Since its establishment in 1979, BIOMA has held more than 130 international training courses sponsored by the Chinese government and international organizations for more than 3000 international participants from over 120 countries and the training types covered multilateral, bilateral, overseas trainings, technical training courses, and seminars for officials and ministerial		

	seminars. At the same time, entrusted by the Chinese government and international organizations, experts from BIOMA have conducted overseas training and demonstration projects in developing countries, actively participated in the introduction and export of agricultural technologies and products, and established long-term cooperative relations with scientific research institutions in Europe, America and other developed areas.
Contact of the Organizer	Contact: Ms. ZHANG Wen/ Mr. LAI Chengxi/Mr. LUO Ximin Office Phones: 0086-28-85230677,0086-28-85589845 Mobile Phones:0086-13308071295(ZHANG),0086-13308229597(LAI),0086-13880648415(LUO) Fax: 0086-28-85230677 E-mail: biomatc@163.com Facebook: TC Bioma

Training Course on Diagnosis and Treatment of Covid-19 for Belt and Road Countries **Program Description**

Name	Training Course on Diagnosis and Treatment of Covid-19 for Belt and Road Countries		
Organizer	International Health Exchange and Cooperation Center NHC People Republic of China(IHECC)		
Time	Apr.13-Apr.22,2021	Language	English
Organizing Method	Online Training	Platform	Pending
Invited Countries	B&R countries	Number of Participants	25
Purpose	Sharing China’s experience in the fight against the Covid-19 and the ensuring public health security		
Requirements for Participants	Background	Professionals in public health and medical services	
	Age	No older than the retirement age of the recipient country	
	Health Conditon	Healthy and able to attend online training on time	
	Language Proficiency	Fluent in English(speaking, writing, listening and reading)	
	Others	Please contact the organizer 5 days in advance to test equipment.	
Training Content	The Covid-19 global pandemic is the most extensive crisis that has afflicted humanity in a century. A formidable crisis for the entire world, and a daunting challenge, it poses a grave threat to human life and health. Making people’s lives and health its first priority, the Chinese government has adopted extensive, stringent, and thorough containment measures, and has for now succeeded in cutting all channels for the transmission of the virus. The virus is currently wreaking havoc throughout the world. China grieves for those who have lost their lives and those who have sacrificed themselves in the fight, extends the greatest respect to those who are struggling to save lives, and offers true moral support to those who are infected and receiving treatment. We firmly believe that as long as all countries unite and cooperate to mount a collective		

	response, the international community will succeed in overcoming the pandemic, and embrace a brighter future. In order to share with you China's experience in the fight against Covid-19 pandemic and in ensuring public health and security, IHECC will organize the Training Course on Diagnosis and Treatment of Covid-19 for Belt and Road countries from April 13th to April 22th, 2021 in the form of live streaming, real-time communication, Q&A and seminars. Professionals who work at the frontline of the prevention and treatment of covid-19 will be invited to share their experience and knowledge in such areas as China's public health system, prevention and control of covid-19, viral etiology and epidemiology, nucleic acid testing, imaging diagnosis and identification, treatment for the affected and critically ill patients, treatment with Chinese medicine, infection control of medical services, self-prevention of medical staff, vaccine development and inoculation.		
Host City	Beijing, China	Cities to Visit	/
Notes	1. This is a remote class, which requires trainees to have smooth internet connection and devices such as computers with cameras and microphones. 2. Please be punctual for class and observe class discipline. Class attendance & performance serve as the criteria for issuing the training certificate. 3. Class discipline: enter online classrooms 10 minutes ahead of time to test equipment and make other preparations. Trainees are required to use their real names (consistent with passport names) as user names (Format: Name+Nationality). 4. Information security: To maintain information security and privacy, please don't share the class content on any social media platforms. Course materials will be sent to trainees after each class. Please attend classes as scheduled and prepare necessary materials for class interaction and discussion.		
About the Organizer	1. The Center for International Exchange and Cooperation of the National Health Commission is an independent legal entity, directly led by NHC, that specializes in international exchange and cooperation in the field of health. It is responsible for organizing research on the theory, policy and development strategy of international		

	cooperation in the field of health and providing policy suggestions and technical advisory services on legislation, government decision-making and regulation planning. The Center drafts operational regulations and technical specifications for international exchanges in health industry, undertakes international health care assistance projects, carries out charity health cooperation projects both in and outside China, and strives to promote global cooperation for the development of health industry. The Center has been undertaking foreign aid training programs of MOFCOM for 14 years. It finished 62 programs, receiving 1,321 trainees from more than 60 countries and regions. Based on the principles of "using the best resources" and "multi factor, multi benefit, all links and long-term development, the Center conducts foreign aid training in health and share the comparative advantages and the best practices of China's health industry with students from other countries. 2. As a public institution directly under the National Health Commission, the Center has close ties with various departments of the Commission, medical and health institutions, colleges and research institutions at all levels. It has an excellent team of teachers, who provide scientific and practical training courses that satisfy the different needs of students.
Contact the Organizer	Contact: Mr. Chen Zhi Office telephone number: 0086-10-88393862 Mobile phones: 0086-13661325483 QQ : 809611996 Email address: yuanwaipeixun@ihecc.org.cn

Seminar of Comprehensive Measures for Rural Teachers from Developing Countries

Project Description

Project Name	Seminar of Comprehensive Measures for Rural Teachers from Developing Countries		
Organizer	East China Normal University		
Time	April 9-April 29, 2021	Language	English
Invited Countries	Officials or scholars in the field of education in developing countries		
Number of Participants	20 in total		
Requirements for the Participants	Age	No more than 50 years old for participants of departmental directorship. No more than 45 years old for participants of division level. Age requirements for the online seminar can be relaxed as appropriate.	
	Health	In good health with health certificate or physical exam form issued by the local public hospitals; without severe chronic diseases such as serious high blood pressure, cardiovascular/cerebrovascular diseases and diabetes; without mental diseases or epidemic diseases that are likely to cause serious threat to public health; not in the process of recovering after a major operation or in the process of acute diseases; not seriously disabled or pregnant. Health requirements for the online seminar can be relaxed as appropriate.	
	Language	Capable of listening, speaking, reading and writing in English	
	others	Relatives and family members shall not follow	
Host City	Shanghai	Cities to visit online	Shanghai
Notes	1. This seminar will be held online on the DingTalk platform, and the participants are required to prepare related equipment including network, computer, microphone, camera, etc. 2. During the seminar, participants should follow the schedule and teaching discipline, and personal attendance record decide whether the training certificates will be issued. 3. Teaching discipline: participants have to join the online meeting 5 minutes in advance to get prepared. Change ID name into “name (consistent with the passport name) -nationality abbreviation”. 4. Information security: In order to protect the information security and personal privacy, please do not share the content of the lectures on any social media. The materials will be sent to the participants after class. 5. Participants should prepare related materials according to the seminar schedule.		
Contact of the Organizer	Contact Person(s)	Mr. PENG Li-ping; Ms. WU Lei

About the Organizer	East China Normal University (ECNU), founded in October 1951, one of the 16 key institutions of higher learning under the direct auspices of the Ministry of Education of China since 1959, influential both at home and abroad. It is a member university of “Project 211” and “Project 985”. In 2017, the university was listed as tier A member university for the development of world first-class universities of China and hence started the new journey ever since. On December 28, 2017, 12 disciplines of ECNU were listed as tier A nationwide with both Pedagogy and World History as A+, ranking 19 as a whole among all the universities in China during the fourth round of discipline evaluation carried out by China Academic Degrees & Graduate Education Development Center (CDGDC). Teacher education is a unique advantage of ECNU. For decades, ECNU has trained a large number of outstanding teachers and educators for China. The University offers 30 doctoral programs of the State Primary Disciplines, 36 master's programs of the State Primary Disciplines, 21 professional master's programs, 26 post-doctoral mobile research stations, and 84 undergraduate majors. It has two National Primary Key disciplines, namely education and geography disciplines, five National Secondary Key disciplines, five National Key Cultivating disciplines, 12 disciplines enlisted as Class-A by the Ministry of Education of China, six disciplines included in Shanghai Peak Disciplines Program, twelve Shanghai key disciplines and 17 Shanghai first-rate disciplines. In the field of science, ECNU is home to two State key labs, one National Engineering Research Center, one National Field Observation and Research Station, one State-level International Joint Research Center, seven Key Labs and Engineering Centers of the Ministry of Education of China, one International Cooperation Joint Lab of the Ministry of Education of China, one Soft Science Research Base of the Ministry of Education of China, one Field Scientific Observation and Research Station of the Ministry of Education of China, one Research Center of the Ministry of Civil Affairs of China, one Key Lab of the Press and Publication Administration of China, one Engineering Technology Innovation Center of the Ministry of Natural Resources of China, 10 Shanghai Key Labs and Engineering Research Center, one Shanghai Collaborative Innovation Center, one Shanghai Engineering Research Center, one Shanghai Field Scientific Observation and Research Station, one Shanghai Soft Science Research Base, and one Shanghai Collaborative Innovation Center. ECNU is equally strong in liberal arts, with six Key Research Bases for Humanities and Social Sciences of the Ministry of Education of China, one National Key Research Base for Teaching Material Development, 11 Shanghai Philosophy and Social Sciences Innovation Research Bases and Shanghai Municipal Government Decision-making Consultation Research Bases, four Shanghai University Think Tanks, nine Shanghai Higer Institution Humanities and Social Sciences Key Research Bases, seven National and Regional Research Centers approved by the Ministry of Education of China, six National Liberal Arts and Science Basic Disciplines Talent Training and Science Research Bases, two State Experimental Teaching Demonstration Centers, one State VR Experimental Teaching Center, and eight city-level experimental teaching demonstration zones. The university sponsors or supervises the publication of nearly 23 Chinese and 4 English academic journals and periodicals. Its	

	library collection has exceeded 4,800,000 volumes and 158 databases (450 sub-bases), and it also has 47 affiliated primary and secondary schools, and kindergartens. Among the total staff of 4,394, there are 2,352 full-time faculty members, including 18 national academicians and 1,969 professors and associate professors, many of whom enjoy high reputation in their respective academic circles. Currently, there are 16,273 undergraduate students, 3,630 PhD students, 15,305 graduate students, and 1,527 international students for the study of degree programs on campus per year. ECNU has two main campuses located in Putuo and Minhang districts respectively, which overall has a total area of about 207 hectares. The university follows closely diplomatic policies of the country by strengthening cooperation in related fields with other developing countries. In 2010, ECNU became the third university in China undertaking international degree programs after Peking University and Tsinghua University. The curriculum and teaching work are undertaken by the International Center for Teacher Education (ICTE). In 2014, ECNU, with the ICTE as the degree program undertaker, is approved by the Ministry of Education of China as one of the 12 national undertakers of international programs among 35 colleges and universities undertaking foreign aid programs, mainly "project 985 " and "project 211 " universities. Up to now, the ICTE has undertaken 10 international degree programs and cultivated 238 students with 236 graduated and 2 more for their second-year study of their two-year degree program from 51 countries in Asia, Africa, Latin America, Oceania and Europe. Since 2011, the ICTE has started to undertake short-term seminars of the Ministry of Commerce of China which gradually became a routine every year. So far, 28 seminars have been held, of which one is an overseas seminar in Cuba, with a total of 804 participants from 67 countries in Asia, Africa, Latin America, Oceania and Europe. Teaching and working languages include English, French, Arabic and Spanish. In 2019, the ICTE also undertook training programs funded by the Ministry of Foreign Affairs of China. In 2015, ECNU was entrusted by the UNESCO headquarters to run the one-year “UNESCO-China (The Great Wall) Co-sponsored Fellowships program---ECNU Advanced Training Programme” with again ICTE as its undertaker. As the only university in China to undertake the class-scale Great Wall fellowship Programme, ECNU appointed ICTE to undertake the curriculum and teaching work of this programme. In 2019, ECNU was approved by the Ministry of Education of China to launch the two-year Master’s program of “China-Africa Friendship Scholarship” program. The courses and teaching work are undertaken by the ICTE. In the same year, the ICTE also enrolled two-year Master’s students sponsored by the Shanghai Government Scholarship Programs. In December, 2014, approved again by both the Ministry of Education and the Ministry of Foreign Affairs of China, the “China-ASEAN Centre for Education and Training, ECNU” was established within ICTE. Besides, the “China-ASEAN Centre for Education and Training, ECNU” has become a council member of the Alliance of China-ASEAN Education and Training Centers since 2015 and a standing council member since 2016.
Seminar Content	Entrusted by the Ministry of Commerce of the People's Republic of China, East China Normal University will hold an online Seminar of Comprehensive Measures for Rural Teachers from Developing Countries in Shanghai from April 9 to April 29, 2021. The main contents of the Seminar will be: 1. An Overview of China’s Reform and Opening-up Policies and Innovative Practices in Educational

	Changes Driven by and Contributing to Economic and Social Development 2. An Overview of China's Educational Reform 3. Chinese Confucius Culture and Traditional Chinese Educational Philosophy 4. Education Agenda 2030 for Sustainable Development Goals 5. Learning Achievement Assessment and Quality Assurance Framework 6. Education Supervision and School Development 7. Education Reform in OECD Countries 8. Education and Innovation 9. Comparative Studies of Basic Education in the US and China 10. Training for China's Secondary School Principals 11. China's Inclusive Education: Theory and Practice 12. Application of Big Data Mining and Analysis in Education 13. China's Education Plans: 2010-2020-2035 14. Results and reflections from PISA 2018 and basic education in Shanghai 15. Basic education reform in Huangpu District, Shanghai 16. How to Achieve Quality Education: the case of No.2 High School attached to ECNU 17. The Current Situation and Development Trend of Education in Rural Areas of China 18. Higher Education Development in Asian and Developing Countries: Experiences and Challenges 19. The Development and Challenges of Teacher Education in China 20. The Governance of Higher Education in China 21. Vocational Education and Economic Development in China Experts on education from within and outside of East China Normal University with some from around the world will be invited to give lectures and facilitate two-way interactions with the trainers. During the seminar, participants will be arranged to visit different kinds of schools in Shanghai through online platforms to help them learn more about the current practices of basic education in Shanghai and share experiences with each other. In addition, there will be online field trips to places of cultural, economic and educational interests in Shanghai. With these, participants are expected to better understand what China has achieved in education within broad context of socio-economic and cultural development since China's reform and opening-up beginning from early 1980's. At the same time, the opportunities of enhanced partnership and cooperation in education between China and other developing countries could also be facilitated in the years to come.

Seminar on Management and Protection of Nature Reserve for Developing Countries Program Description

Name	Seminar on Management and Protection of Nature Reserve for Developing Countries		
Organizer	China National Bamboo Research Center (CBRC)		
Time	April 15 ~ April 28, 2021	Language	English
Organizing Method	Online training	Platform	Pending
Invited Countries	Developing countries	Number of Participants	25
Purpose	This seminar aims to 1) make an introduction to modern China; 2) provide an overview of the policies, measures and conservation technology in nature reserve management in China; 3) share China's experience on the protection and wise use of natural resource; and 4) promote the exchange on nature reserve management so as to enhance participants' capability and facilitate the regional and international cooperation in this field in future.		
Requirements for Participants	Professional Background	Government officials, scientists and technicians working for nature reserve management authority and other forestry or environment administrations in developing countries	
	Age	Not exceed the statutory retirement age in participant's own country	
	Health Condition	Be in good health and capable of attending online courses as scheduled	
	Language Proficiency	Fluent in English (listening, reading, speaking and writing)	
	Others	The organizer will provide guidance and technical assistance remotely.	
Training Content	Commissioned by the Ministry of Commerce of the People's Republic of China (MOFCOM), Seminar on Management and Protection of Nature Reserve for Developing Countries will be held online by China National Bamboo Research Center (CBRC) from April 15th to April 28th, 2021. This seminar provides a series of lectures, discussion sessions and virtual tours. Renowned scholars from top forestry universities, international organizations, nature reserve management authorities and hi-tech companies will be invited to give presentations. The lectures cover a broad spectrum of topics, including 1. Introduction to China; 2. Overview and development of nature reserves; 3. Nature reserve classification and function assessment; 4. Establishment of national parks; 5. Laws and regulations of nature reserves; 6. Wetland nature reserve management; 7. Wild fauna conservation; 8. Wild flora management; 9. Scientific research in nature reserves; 10. New techniques in nature reserve management; 11. Nature conservation and public involvement; 12. Introduction to a protected world heritage site, etc. Discussion sessions with experts in this field will also be arranged. Due to the current pandemic background, COVID-19 prevention and containment measures will be shared for the safety of the participants.		

	“Two Mountains Theory” and typical cases of modern countryside development will be discussed to demonstrate China’s achievement in poverty alleviation. In addition, virtual tours to some typical nature reserves in China are scheduled, which serve as case studies on nature reserve management and help to digest the knowledge acquired in lectures. Meanwhile, participants can appreciate China’s social, economic and ecologic achievements in recent decades and explore the cooperation opportunities on nature conservation in future.		
Host City	Hangzhou, Zhejiang	Cities of Virtual Tours	Shanghai, Hangzhou, Yancheng, Lushan (subject to change)
Notes	1. The training program will be held online which requires participants to prepare necessary equipment and devices such as internet connection, computer, microphone, camera, etc. 2. Participants should be punctual and well-disciplined. The Certificate of Completion will be issued to those who meet all the requirements including good attendance records. 3. Participants should enter the virtual classroom in advance with the screen name “NAME + COUNTRY” identical to the passport information. 4. Participants should respect and maintain the confidentiality and security of the information and data concerning the Seminar. Course materials will be shared to participants after class, which shall not be posted via social media.		
About the Organizer	CBRC was established in 1984 and is headquartered in Hangzhou, China. CBRC has 3 missions: (a) Bamboo research at national and international levels; (b) International exchange, cooperation and personnel training; and (c) Bamboo industrialization. Over 40 training spots have been set up in China. In 2011, International Forestry Science and Technology Training Center of the National Forestry and Grassland Administration (NFGA) was established at CBRC. Since 1993, CBRC has organized 143 international workshops, including 7 ministerial seminars, all sponsored by the Ministry of Commerce of China (MOFCOM), United Nations Development Program (UNDP), United Nations Industrial Development Organization (UNIDO) and individual governments. So far, 4,161 participants from 111 countries have been well trained. CBRC also conducts the China-aid Bamboo Development Project for Rwanda as entrusted by MOFCOM and has successfully provided technical service to over 30 countries. The Department of Natural Protected Areas Management, NFGA is under the jurisdiction of the National Forestry and Grassland Administration of China. Its responsibilities include drafting laws and regulations on nature reserves, implementing related policies, planning and standards, organizing national nature reserve assessment, conducting resource survey, capacity building, ecological rehabilitation and monitoring in natural protected areas, coordinating wise use and ecological compensation in natural protected areas, and undertaking international conventions implementation. It provides guidance on course schedule and virtual tour arrangement, and ensures the quality of training at the professional level.

Situated in the famous Xiaotangshan Longmai hot spring area, Changping District, on the riverside of Wenyu River which is reputed as the mother river of Beijing, AIBO boasts a history of 40 years. Covering an area of nearly 600 <i>mu</i> (about 40 hectares) with the total floor area of over 100,000 m², it enjoys beautiful environment and fresh air and has all necessary facilities. Besides, it is conveniently connected to the city's transportation networks. AIBO provides training, academic teaching, conference service as well as holiday service. It has meeting rooms (including VIP rooms) of various sizes. AIBO's hotel is well-furnished and provides all necessary facilities. AIBO is the first to organize seminars for government business officials from other developing countries starting from 1998. Now seminars it organizes cover a large range of topics such as economic administration, trade and investment, city planning and administration, telecommunication, transportation, construction of development zones, logistic management, development of natural resources, international labor cooperation, coordinated development of urban and rural areas, wireless communication and digital TV technology, clean energy, etc. Apart from the seminars for officials at director's level or director general's level, AIBO has also organized many ministerial workshops. By the end of 2020, AIBO has organized 1768 seminars/workshops including 117 Ministerial Workshops, receiving 49927 officials including 1053 ministerial officials from 160 countries and regions around the world. AIBO will strive to make new contributions to the development of China's commerce and develop into a well-known educational and training institution both at home and abroad.

By the end of 2020, AIBO has organized 1768 seminars/workshops including 117 Ministerial Workshops, receiving 49927 officials including 1053 ministerial officials from 160 countries and regions around the world. AIBO will strive to make new contributions to the development of China's commerce and develop into a well-known educational and training institution both at home and abroad. <i>Southwest Jiaotong University</i> Southwest Jiaotong University is a national key university directly under the administration of the Ministry of Education of the People's Republic of China. It is one of the first batches of "Double First-Class", "Project 211", "Special 985 Project", and "2011 Collaborative Innovation Plan". It is located in the famous cultural city-Chengdu. There are three campuses in Jiuli, Xipu, and Emei, covering an area of more than 5,000 acres. Founded in 1896, the university was formerly known as the Imperial Chinese Railway College. It is the first engineering education institution of higher learning in China. The university has 26 colleges (academies, centers), 18 first-level disciplines authorized to offer doctorate degrees, 3 doctoral professional degree authorization categories, 40 first-level disciplines authorized to offer master's degrees, and 11 post-doctoral research mobile stations. The school has more than 2,700 full-time faculties, 29,200 full-time undergraduates, 16,575 postgraduates, 2,364 doctoral candidates, and 900 international students. There are 13 national scientific and technological innovation platforms and 36 provincial and ministerial scientific research bases. The university has established the world's most complete discipline system, talent system and scientific research system in the field of rail transit.
