2. The least-learned skills determined from the PISA 2022 Familiarization Practice Test are the following:
- Mathematics - abstract reasoning, verbal reasoning, reading mathematical sentences, geometric association, geometric combinatorics, and decision making.
 - Science - scientific reasoning, process evaluation, map reading and analysis, research application, problem solving, and sustainable farming applications.
 - Reading - reading comprehension, semantic analysis, discerning facts and opinions, cause and effect analysis (textual), content analysis and data mining, web-based reading, web scanning and skimming, and English written composition.
3. With these findings, all concerned Schools Division Offices and sample schools are highly encouraged to take the following recommendations:
- Administer a post-test using the PISA 2022 Familiarity Practice Test after conducting a series of review and practice tests targeting the least-learned skills;
 - Conduct review lessons targeting basic computer skills; and
 - Expose test takers to text- and graphics-based test questions.

4. Immediate dissemination of this Memorandum to all concerned is highly desired.
