June 27,2022

**HON. MA. GEMMA M. LEDESMA**

Regional Director

Region 13 CARAGA

Department of Education

Libertad St., Butuan City

**Dear Director Ledesma:**

The JAG Academy intends to conduct a 12-Day Post Graduate Early Childhood Education with the theme " Learning for Life : Supporting Preschool Teachers Competency to Build on the Young Learners' Literacies ".

Relative thereto I would like to request for approval and advisory of 12-Day Post Graduate Course on Early Childhood Education on the following dates and venue listed below;

|                 |   |                                   |
|-----------------|---|-----------------------------------|
| July 11-22,2022 | - | Pastoral Center , Butuan City     |
| July 16-27,2022 | - | St. Paul University, Surigao City |

**TARGET PARTICIPANTS:**

The course caters to teachers of the first key stage of the , Child Development Workers (CDW) ,K to 12 Curriculum (K to G3), but is also open to any educator or educator in preparation who wishes to further expand his/her knowledge on literacy and numeracy development in early childhood education.

**PERFORMANCE OBJECTIVES:**

At the end of the course, participants are expected to develop and execute a daily lesson log.

**LEARNING OBJECTIVES:**

By the end of this course, the participants shall be able to:

1. Acquire in-depth knowledge and understanding of the philosophical, historical, biological, psychological and legal bases of preschool/early childhood education in the Philippines and in other countries
2. Describe the characteristics of young Filipino (infants, toddlers preschoolers, primary schoolers)along the physical, cognitive , personal, social and moral dimensions
3. understand the principles and philosophies on early childhood literacy and numeracy ;
4. apply various age- and developmentally appropriate strategies for promoting literacy;
5. apply various age- and developmentally appropriate strategies for promoting numeracy; and
6. deliver a lesson log for early childhood learners based on the K to G3 curriculum.
7. Plan and develop developmentally appropriate curriculum guided by the characteristics of a good early childhood curriculum.
8. Explain/analyze current trends in preschool education

| Day         | Subject                                                                                            | Course Description                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | Professor/Lecturer                                     |
|-------------|----------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------|
| Day 1 & 2   | Foundations of Early Childhood Education                                                           | Introduces the students to early childhood education. An understanding of ECE includes discussion in the following content areas: historical, philosophical, psychological, social and legal foundations of ECE. Needs of preschoolers, global trends and health and nutrition will also be covered                                                                                                                                                                                                                                                                                                                                                                                                       | PROF. JERRY C. FILIO JR./PROF. ALGIE A. BONITE         |
| Day 2 and 3 | Curriculum Development in Early Childhood Education and Preparation of Instructional Materials     | The course provides concrete knowledge and understanding of the nature, structure, goals and contents of ECE curriculum as well as the mastery of concepts and skills in effectively managing instruction in ECE. Curriculum models in ECE will also be discussed                                                                                                                                                                                                                                                                                                                                                                                                                                         | PROF. JERRY C. FILIO JR./PROF. ALGIE A. BONITE         |
| Day 4 and 5 | Principles and Strategies for Developing Literacy and Numeracy Skills in Young Children            | Provides information on the contributions of language and mathematical-logical abilities to individual well being. Developmental sequences, teaching strategies, and suggested activities for these areas will be tackled as well as current trends and issues.                                                                                                                                                                                                                                                                                                                                                                                                                                           | PROF. RODERICK M. AGUIRRE/PROF. GENARO R. GOJO CRUZ    |
| Day 6 and 7 | Principles and Strategies for Developing Psychomotor and Creative Skills in Children               | Equips students with varied teaching strategies and approaches that will develop children's psychomotor and creative abilities. Developmental sequences, strategies in teaching and activity suggestions for physical activities, music, art and play will be discussed. Current educational issues relating to these areas will likewise be included.                                                                                                                                                                                                                                                                                                                                                    | PROF. RODERICK M. AGUIRRE                              |
| Day 8 and 9 | Child Development and Assessment for Young Children                                                | Provides future practitioners with insights into child behavior. Principles of child development and childhood learning with corresponding implications will be discussed. Deviations in the typical development in children as determined by assessment will also be tackled                                                                                                                                                                                                                                                                                                                                                                                                                             | Prof. Roderick M. Aguirre                              |
| Day 8 & 9   | Early Numeracy, Science and Health, Social Studies and Mother Tongue for Early Childhood Education | Provides foundation of basic knowledge regarding language development in young children, It is designed to examine the content and methods of language arts, reading for young children in academic and non academic settings addressed the acquisition of knowledge skills related to the development of mathematics for pre-primary children. It is also examines the content and methods of math education for young children in primary settings, examines the content and methods of science education for young children in care giving, educational and academic settings. It also helps participants examine the diversity of teaching strategies available for guiding the learning experiences. | Prof. Roderick M. Aguirre<br>PROF. GENARO R. GOJO CRUZ |
| Day 11      | DEMONSTRATION TEACHING                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                        |
| DAY 12      | FINAL EXAM                                                                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                        |
