DR. FRANCIS CESAR B. BRINGAS
Regional Director
Department of Education – Caraga
Butuan City, Agusan del Norte

Dear Dr. Bringas:

Greetings!

The goal of health communications as it relates to health is to share information through effective communications efforts so as to improve the quality of life for individuals, communities, and populations. It encompasses the study and use of communication strategies as a way to influence individual and community decisions that enhance health.

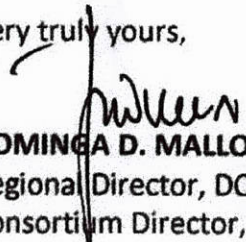

With this, it is very important for the Caraga Health Research and Development Consortium to develop an environment wherein communities can be able to easily access and comprehend such information related to health and their overall well-being. And thus, with the initiative of the consortium, we would like to invite at most **five (5)** active health researchers of your institution to participate in our **Training on Health Communication through Effective Writing and Infographics** this coming **September 12-13, 2019, 8 AM** at **Grand Palace Hotel, Butuan City**.

We would highly appreciate if we could receive the accomplished confirmation slip (please see attached) not later than **September 9, 2019** through email at caragahealth@gmail.com. Should you have any queries, please contact the CHRDC secretariat via telephone no. (085) 341-9551 or mobile number 0946-236-9334.

We are looking forward for your participation of this event.

Thank you!

Very truly yours,

DOMINGA D. MALLONGA
Regional Director, DOST Caraga
Consortium Director, CHRDC
