The 14th APEC Future Education Forum (AFEf) and The 16th International ALCoB Conference

November 27-29, 2018
Metro Manila/Pasay City (TBC)

Draft/Tentative Concept Note

Background

The Asia-Pacific Economic Cooperation (APEC) is a regional economic forum established in 1989 to leverage the growing interdependence of the Asia-Pacific. APEC's 21 member economies aim to create greater prosperity for the people of the region by promoting balanced, inclusive, sustainable, innovative and secure growth and by accelerating regional economic integration.

The APEC Human Resources Development Working Group (HRDWG) was established in 1990 with the goal of promoting the well-being of all people and achieved sustainable and inclusive economic growth in the region. It plays an important role in building the region's human capacity. It implements initiatives on education, labor and capacity building in aid of its mission to share knowledge, experience and skills to strengthen human resource development across the region to promote sustainable economic growth.

The working group is guided by these three objectives:

- Develop 21st century knowledge and skills for all
- Integrate human resources development into the global economy
- Address the social dimensions of globalization

The HRDWG implements initiatives on education, labor and capacity building to develop human resources. It derives its mandate from APEC Leaders and Ministers as well as Labor and Education Ministers.

Recognizing that human resources development is a cross-cutting issue, the HRDWG coordinates with several other APEC working groups such as the Committee on Trade and Investment, the Economic Committee, the Small and Medium Enterprises Working Group, the Policy Partnership on Science, Technology and Innovation, the Policy Partnership on Women and the Economy and the APEC Business Advisory Council (ABAC). HRDWG also cooperates with other international organizations such as the Association of Pacific Rim Universities; the United Nations Educational, Scientific and Cultural Organisation (UNESCO); the Organisation for Economic Co-operation and Development (OECD); and the International Labor Organisation.

Based on the theme of 2018 APEC Economic Leaders' Meeting which is "Harnessing Inclusive Opportunities, Embracing the Digital Future," the 14th AFEf and 16th International ALCoB Conference will be the venue to discuss on "Future Education for Harnessing Inclusive Opportunities in the Digital Age."

APEC Future Education Forum (AFEFF) Overview

The APEC Future Education Forum is an international forum that invites education policy makers, scholars, experts, teachers, and entrepreneurs from APEC member economies to solidify the vision of future education and to materialize ideal model of future schools from a wide spectrum of viewpoints on future society and education.

It is an arena where discussion on international education collaboration, directions, and visions for future education are discussed to establish mutual prosperity in the APEC region.

As part of the official APEC Project entitled "APEC Future Education Consortium (AFEC)," AFEFF was endorsed in 2004 at the 26th APEC Human Resources Working Development Group (HRDWG) Meeting.

As the largest annual international education forum in the APEC region, the AFEFF has accumulated number of 3,300 participants who are government officials, experts, entrepreneurs, teachers, students and officials from International Organizations.
