Hybrid Regional Training Programme on

INTEGRATING ENTREPRENEURSHIP AND TECHNOPRENEURSHIP INTO THE TVET CURRICULUM

Colombo Plan Staff College (CPSC), Manila, Philippines &
SEAMEO VOTTECH, Brunei Darussalam

14 - 16 April (Online) | 21 - 25 April 2025 (Onsite)

Rationale

As economies become increasingly technology-driven, Technical and Vocational Education and Training (TVET) institutions must go beyond traditional skills training to cultivate innovation, adaptability, and entrepreneurial mindsets. The ability to integrate entrepreneurship and technopreneurship into TVET curricula is essential in equipping learners with the skills needed to create business opportunities, leverage technology for innovation, and respond to industry demands in a rapidly evolving world.

To address this need, Colombo Plan Staff College (CPSC) and SEAMEO-VOTTECH are jointly organising a regional training program aimed at equipping TVET curriculum developers, educators, trainers, policymakers, and administrators with the necessary knowledge and tools to foster entrepreneurship and technopreneurship in TVET institutions. The programme will bring together 34 participants from CPSC member countries and SEAMEO-VOTTECH institutions, promoting cross-country collaboration and shared best practices in entrepreneurship-driven TVET education.

Objectives

By the end of the training, participants will be equipped with practical strategies, curriculum integration frameworks, and institutional action plans that can be implemented in their respective TVET systems. This initiative will contribute to strengthening entrepreneurial education, fostering innovation, and enhancing economic resilience of the SEAMEO and Colombo Plan member countries.

Specifically, this training will enable participants to:

- explain the fundamental principles of entrepreneurship and technopreneurship and their relevance to TVET,

Course Outline:

Hybrid Regional Training Programme on

INTEGRATING ENTREPRENEURSHIP AND TECHNOPRENEURSHIP INTO THE TVET CURRICULUM

FY 2024 - 2025

APPENDIX 1

- develop strategies to integrate these concepts effectively into TVET curricula,
- explore emerging trends and technologies that support business innovation and startups,
- develop and implement entrepreneurial ecosystems within TVET institutions to support new business ventures, and
- formulate action plans for implementation at the institutional and national levels.

Contents

Online: April 14–16, 2025

Module 1: Introduction to Technopreneurship & Policies for TVET Entrepreneurship

In this module, participants will be introduced to the core concepts of entrepreneurship and technopreneurship in the TVET sector, emphasising the role of innovation and technology in modern business success. They will analyse government and institutional policies supporting entrepreneurship in TVET and examine case studies from participating countries to gain insights into effective strategies, challenges, and best practices in fostering entrepreneurial initiatives.

Module 2: Technopreneurship Integration in TVET Curricula

In this module, participants will explore strategies for embedding technopreneurship into TVET courses, focusing on curriculum development for fostering an entrepreneurial mindset. They will examine industry-academia collaboration to enhance skills-based entrepreneurship training and analyse challenges and solutions in implementing technopreneurship within TVET institutions.

Module 3: Emerging Opportunities in Technopreneurship – Market Research & Business Trends

In this module, participants will examine market dynamics and emerging trends in technopreneurship, emphasising the role of data analytics and AI in market research. They will learn to identify potential start-up ideas within the TVET sector and analyse country presentations on market research and the entrepreneurial landscape, gaining insights into industry opportunities and best practices.

Module 4: Digital Entrepreneurship & Technology Adoption in TVET Startups

In this module, participants will examine how digital tools drive business growth, focusing on the role of AI, IoT, Blockchain, and Automation in startups. They will analyse strategies for e-commerce, digital marketing, and monetizing online businesses while gaining insights from success stories of digital transformation in TVET entrepreneurship.

Module 5: Formulating a Business Plan & Entrepreneurial Financing

In this module, participants will delve into the key components of a business plan for technopreneurs, exploring funding sources such as government grants, venture capital, and

FY 2024 - 2025

APPENDIX 1

crowdfunding. They will assess financial management strategies to ensure business sustainability and engage in idea pitching and strategic brainstorming to refine their entrepreneurial concepts.

Onsite: 21 – 25 April 2025

Module 1: TVET & Entrepreneurship: Global & Regional Perspectives

This module will allow the participants to explore the current state of entrepreneurship within TVET systems worldwide, highlighting successful models and identifying areas for improvement.

Module 2: Technopreneurial Ecosystem within TVET Institutions

In this module, participants will examine how TVET institutions can foster a technopreneur culture, including the necessary infrastructure, support systems, and partnerships.

Module 3: Integration Strategies for Technopreneurship in TVET Curriculum

This module will delve on the strategies and methodologies for embedding technopreneurship into existing TVET curricula, ensuring alignment with industry needs and technological advancements.

Module 4: Developing Modular Content for Entrepreneurship

This module will introduce the participants to the guidelines for creating flexible, modular content that can be adapted across various disciplines within TVET programmes to teach entrepreneurial skills.

Module 5: Assessing & Evaluating Entrepreneurship Skills

In this module, participants will explore the different methods and tools for assessing students' entrepreneurial competencies, including both formative and summative evaluation techniques.

Module 6: Technology-Driven Business Model Development

In this module, participants will examine insights into how emerging technologies can drive innovative business models, with case studies illustrating successful implementations.

Module 7: Technopreneurship and Emerging Technologies: Blockchain, AI & IoT in Business Innovation

In this module, participants will analyse how cutting-edge technologies such as Blockchain, Artificial Intelligence (AI), and the Internet of Things (IoT) are transforming business landscapes and creating new opportunities for technopreneurs. Through case studies and discussions, they will gain insights into the impact of these technologies on innovation, efficiency, and market expansion in entrepreneurship.

Course Outline:

Hybrid Regional Training Programme on

INTEGRATING ENTREPRENEURSHIP AND TECHNOPRENEURSHIP INTO THE TVET CURRICULUM

FY 2024 - 2025

APPENDIX 1

Module 8: Risk Management in Startups: Challenges & Solutions / Venture Management, Incubator, Accelerator model, Investment

In this module, participants will assess the common risks faced by startups, particularly in the tech sector, and explore strategies for effective risk mitigation. They will also examine the support structures available for startups, including incubators and accelerators, while gaining practical guidance on securing funding and investment for business growth.

Module 9: Action Plan Development and Presentation: *Design Framework for Integrating Technopreneurship into TVET Curricula*

In this module, participants will analyse the importance of strategic partnerships in technopreneurship, learning how to identify potential partners and develop actionable plans for integrating technopreneurship into TVET curricula. Through interactive discussions and planning exercises, they will gain practical strategies for fostering industry collaboration and strengthening entrepreneurship education.

Half-Day FORUM

This half-day half-discussion forum on the subject will provide an opportunity for local and international participants to learn about the best technopreneurship practices, share success stories, and discuss the footprints and strategies for incorporating technopreneurship in the TVET Curriculum in the presence of experts from Academia, Industry, and technopreneurs.

Duration

The training programme will run for 8 days, divided into two parts: the first part consists of 3 days which will be held virtually from 14 – 16 April 2025, and the second part of 5 days will be held face-to-face, at SEAMEO VOTTECH Regional Centre from 21 – 25 April 2025.

Delivery Method

The medium of instruction for this training programme is English. It will be delivered using a variety of teaching methods and techniques that will elicit the prior knowledge and experiences of the participants on the subject matter. Foremost of these methods are:

- Interactive Lectures
- Hand-on Workshops
- Group activities
- Sharing of experiences
- Half-day Discussion Forum
- Action Plan presentation and critiquing
- Cultural Visit

Expected Outputs

Participants are expected to produce the following outputs:

Course Outline:

Hybrid Regional Training Programme on

INTEGRATING ENTREPRENEURSHIP AND TECHNOPRENEURSHIP INTO THE TVET CURRICULUM

FY 2024 - 2025

APPENDIX 1

- Curriculum Design Framework for integrating entrepreneurship in TVET institutions.
- Prototype Business Plans & Incubation Models developed by participants.
- Action Plans for implementation in their home country institutions.
- Networking & Collaboration among local and international participants for future initiatives on technopreneurship.

Target Participants

This training will consist of 40 TVET Curriculum Developers, Teachers / Trainers / Instructors from TVET Institutions, TVET Policy Makers, and Administrators: 22 from CPSC Member countries including the expected Training Supervisor & Coordinator, and 18 from SEAMEO-Member countries)

Course Requirements

1. Each participant is required to submit a country paper.
2. Each participant **may choose any 1 of the following topics** for your country presentation:

Digital Skills and E-Commerce Entrepreneurship in TVET– Exploring how online business and fintech startups are reshaping employment.

TVET as a Pathway for Self-Employment and Informal Sector Transformation – Discuss how technical education is helping microentrepreneurs formalise businesses.

Developing Community-Based Technopreneurship Models– Examine strategies for creating business solutions tailored to local industries and cultural contexts.

TVET for Women and Youth Empowerment in Entrepreneurship – Highlights programs designed to foster inclusive economic participation among women and youth through entrepreneurial training

3. For more information, please refer to the Guidelines for Preparing a Country Paper on the chosen topic, relevant to the integration of entrepreneurship and technopreneurship into the relevant training programmes.
4. Participants are required to bring curriculum documents relevant to their areas of specialisation and laptop computers.

Course Outline:
