The school is implementing two curricula: 1) K to 12 Basic Education Curriculum, 2) Science, Technology & Engineering Curriculum (STE formerly ESEP).

Section 1. Curriculum Offerings

- 1.1 The new curriculum was implemented starting school year 2012-2013 increasing the number of years in the secondary education to six (6) years with the first four (4) years known as junior high school and the last two (2) years as senior high school. Its overall curriculum design follows the spiral approach wherein learning is a process of building upon previously learned knowledge.
- 1.2 The school is implementing two curricula:
- 1.2.1 K to 12 Basic Education Curriculum
 - 1.2.2 Science, Technology & Engineering Curriculum.
- 1.4 In the Senior High School Program, the school offers the following strands:
- 1.3.1 Science, Technology, Engineering and Mathematics (STEM)
 - 1.3.2 Humanities and Social Sciences (HUMSS)
 - 1.3.3 Accountancy, Business and Management (ABM)
 - 1.3.4 Agri-Fishery Arts with Animal Production NC II and Artificial Insemination-Swine NC II
 - 1.3.5 Home Economics with Cookery NC II, Bread and Pastry Production and Food and Beverage Services.
 - 1.3.6 General Academic Strand (GAS)

Note: offerings depend on school

Section 2. Grading System

(DepEd Order #8 s 2015)

2.1 There shall be four grading periods in a school year, namely; 1st, 2nd, 3rd, and 4th Quarters. At the end of each grading period the student receives the report card reflecting his grades for the quarter. After the 4th quarter the final rating is computed using the averaging method, that is, grades of the four quarters are summed up then divided by four.

2.2 The K to 12 Basic Education Program uses a standards and competency-based grading system. All grades will be based on the weighted raw score of the learners' summative assessments. The minimum grade needed to pass a specific learning area is 60 which is transmuted to 75 in the report card. The lowest mark that can appear on the report card is 60 for quarterly grades and final grades. In the case of those who are under the ESEP curriculum, grading system for K to 12 is still followed,

however, to continually qualify, a student must maintain a final rating of not below 85% in Science, Mathematics & English and 83% in the rest of the subjects without grade lower than 80% in any grading period. Learners are graded on Written Work, Performance Tasks and Quarterly Assessment every quarter. These three are given specific percentage weights that vary according to the nature of the learning area.

2.3 The basis of the computation for K to 12 is distributed as follows:

Table 1. Area Component for Grades 7-10 and its corresponding weight

Area Component	Languages	AP	EsP	Science	Math	MAPEH	TLE
Written Work	30%			40%		20%	
Performance Tasks	50%			40%		60%	
Quarterly Assessment	20%			20%		20%	

Table 10. Area Component for Senior High School and its corresponding weight

Area Component	Core Subjects	Academic Track	Technical-Vocational Livelihood		
		All other subjects	Work Immersion/Research/Business Enterprise/Simulation/Exhibit/Performance	All other subjects	Work Immersion/Research/Exhibit/Performance
Written Work	25%	25%	35%	20%	
Performance Tasks	50%	45%	40%	60%	
Quarterly Assessment	25%	30%	25%	20%	

Source: D.O. # 8, s. 2015

2.4 The components of each computation is explained in the following manner:

- 34.1 The *Written Work* component ensures that students are able to express skills and concepts in written form. Written Work, which may include long quizzes, and unit or long tests, help strengthen test – taking skills among the learners. Other written work may include essays, written reports, and other written output.
- 34.2 The *Performance Task* component allows learners to show what they know and are able to do in diverse ways. They may create or innovate products or do performance –

based tasks. Performance-based tasks may include skills demonstration, group presentations, oral work, multimedia presentations, and research projects. Written output may also be considered as performance task.

3.4.3 *Quarterly Assessment* measures student learning at the end of the quarter. These may be in the form of objective tests, performance-based assessment, or a combination thereof.

2.5 The Quarterly Grade for each learning area is written in the report card of the students and is expressed in whole numbers.

2.6 The summary of learner progress is shown quarterly to parents and guardians through a parent-teacher conference one week before the recognition program for those students with academic deficiencies, in which the report card is discussed. Below is the grading scale with corresponding descriptors:

Table 2. The Level of Proficiency and its Numerical Value

Descriptor	Grading Scale	Remarks
Outstanding	90-100	Passed
Very Satisfactory	85-89	Passed
Satisfactory	80-84	Passed
Fairly Satisfactory	75-79	Passed
Did Not Meet Expectations	Below 75	Failed

Section 3. Awards and Recognition

Source: D.O. No. 36, s. 2016

3.1 Awards and recognition bestowed on learners who have successfully attained standards set by the school support the efforts and accomplishments of these learners and affirm their latent potential, abilities, and dispositions. As per D.O. No. 36, s. 2016, there is no more ranking of students in the honor roll. The awards to be given are categorized into classroom awards, grade-level awards and special recognition.

3.2 Classroom Awards are recognition given to learners in each class or section. A simple recognition may be given per quarter, semester, or at the end of the school year. Awardees are given merit by the adviser and/or other subject teachers in recognition of the learners' outstanding performance in class.

3.2.1 *Conduct Awards* for grades 4 to 12 in each class will be given at the end of the school year.

3.2.2 The *Academic Excellence Award* within the quarter is given to learners from grades 7 to 12 who have attained an average of at least 90 and passed all learning areas. Table 1 shows the specific Academic Excellence Award given to learners who meet the following cut-off grades.

Table 3. Academic Excellence Award

Award	Average Grade per quarter
With Highest Honors/May Pinakamataas na Karangalan	98-100
With High Honors/May Mataas na Karangalan	95-97
With Honors/May Karangalan	90-94

3.2.3 *Recognition for Perfect Attendance* is given at the end of every quarter to encourage learners to attend and actively participate in class. Perfect attendance means that a learner must be present in all of his/her classes, and must have no absences for the entire quarter. Learners who are representing the school for various purposes (e.g., in-school or off campus activities) may also qualify for this award.

3.3 Grade-level Awards are recognition given to learners in each grade-level.

3.3.1 The Academic Excellence Award is given to learners from grades 7 to 12 who have attained an average of at least 90 and passed all learning areas at the end of the school year. The class advisers will give to the Awards Committee the list of qualified learners to be awarded during a school ceremony.

3.3.2 The Leadership Award is given to learners in grades 10 and 12 who have demonstrated exemplary skills in motivating others and organizing projects that have significantly contributed to the betterment of the school and/or community. To qualify for this award, a learner must have no failing grades in any of the learning areas, have not committed any offense punishable by suspension or higher sanction according to the Department's service manual and child protection policies in the current school year, and a class officer or an active member/officer of any recognized school club, team, or organization.

3.3.3 Awards for Outstanding Performance in Specific Disciplines are given to recognize learners in grades 10 and 12 who have exhibited exemplary skills and achievement in specific disciplines. There may be more than one category of awards under the following disciplines: Athletics, Arts, Communication Arts, and Tech-Voc. There will be no separate awards for special programs.

3.3.4 The *Athletics* award is given to learners who have shown outstanding skills in athletics particularly in games and sports through participation and victories in competitions, as well as discipline in training and sportsmanlike conduct and character. The academic rating that will be

considered for this award would be the student's final grade in Physical Education. All learner athletes who will participate shall be excused from their classes effective from the date of their practice/ training in preparation of the said athletic competition. Furthermore, the concerned athletes shall be given due consideration by their subject teachers in all the quizzes, activities, performance task on dates that they are out on training/ competition; the grades of the athlete must be retained/increased. Coaches are likewise advised to look into the status of the athletes, matters pertaining to their academic performances and standings.

3.3.5 *Award for Work Immersion* is specific to Senior High School (SHS) tracks. This award may be given to grade 12 graduating students who have exemplified outstanding performance based on the terms of reference or engagement set by the school and evaluation of the direct supervisor and subject teacher. This rating in the report card consists of the learner's performance and/or output during the Work Immersion.

3.3.6 *Award for Research or Innovation* is specific to the SHS tracks. Grade 12 graduating students—individuals, pairs, or groups of not more than four members—must have led the planning and execution of a research or innovation to advance the potential applications of technology, or research whose findings can be used to drive better efficiency and productivity as well as to improve the lives of the people in the school and/or community.

Section 3. Guidance Office

3.1 The objectives of the Guidance program are oriented towards student self-realization and total personality development. Its services are designed to equip the students with the necessary tools for self-actualization in the context of personal, familial and societal realities. The Guidance Counselor is available in the Guidance office during office hours from 8:00 am – 12:00 noon; 1:00 pm – 5:00 pm. to take charge of the following services:

3.1.1 Counseling – This is the heart of Guidance. It aims to assist students in processing their issues and concerns towards an acceptable resolution in an atmosphere conducive to trust and confidentiality.

3.1.2 Individual Inventory – It refers to the process of gathering relevant data of the students useful for teaching and counseling.

3.1.3 Information – This service pertains to the dissemination of information regarding personal and social concerns to develop students' adjustment and academic life through seminars, talks and bulletin postings.

3.1.4 Follow-up and Referral – This area focuses among students who are referred by teachers and administrators regarding varied concerns such as misconduct and failures to ensure that they have learned appropriate behaviors. Likewise, referral to community agencies will be facilitated for cases needing special attention.

3.2 R.A. 9258, otherwise known as the Guidance Counseling Act of 2004, sec. 3 defines Guidance and Counseling as involving "...the use of an integrated approach for the development of a well-functioning individual primary by helping him/her potentials to the fullest and plan his/her present and future in accordance with his/her abilities, interests, and needs," and "the very term, 'counseling' is synonymous to a face-to-face helping relationship. It is a mission of service." In this sense, the task of a Guidance Counselor entails a friendly aura where

students/clients could be at ease and comfortable enough in confiding their innermost private thoughts which might be bothering them intrinsically.

- 3.3 The task of implementing disciplinary measures, primarily to the Prefect of discipline, evokes an intimidating aura which is an impediment for one to be considered an approachable authority for student-clients. Therefore in this sense, the act of investigation, mediation, adjudication and imposition of penalties to offender student/s are not among the responsibilities of a Guidance Counselor/Advocate for him/her efficient in his/her job.
- 3.4 Technically, Guidance counselor deal with the emotional equilibrium of the student-clients. That is, helping them regain or enhance their motivation to become productive learners in school through the application of psychological processing we call counseling.
- 3.5 Guidance Counselor/Advocate will serve as the source of comfort for scared, humiliated and confused students. Student-client will be encouraged to open up. The main job during Counseling/coaching is to dig down deeper the reason behind misbehavior of a student offender because the misconduct displayed might merely be a symptom from a bigger problem. For example, the irritability and erratic temperature of one individual might be just a symptom of his/her family problems.
- 3.6 For these reason, students who undergo disciplinary actions will likewise undergo the counseling process upon the referral of the Prefect of discipline. For record purposes, the referred student/s must bring the promissory/agreement form filled up and signed by the concerned student/s and the Anecdotal Record Form (ARF) filled up the class Adviser or Subject Teacher or any faculty member who witness the incident indicative of the misconduct of the offender-student.
- 3.7 Students who are not committing misconduct or undergoing disciplinary actions but are displaying symptoms of stress, loneliness, trauma and other personal problems affecting his/her academic performance in school shall be referred by the Class Adviser or Subject Teacher for counseling/coaching. The referred student must bring the Anecdotal Record (ARF) filled up by the observer, i.e. Class Adviser, subject Teacher or any faculty member who personally witness the unpleasant intrinsic or psychological indications displayed by the referred student.
- 3.8 In other cases, the Guidance Counselor may call directly the attention of a student to the Guidance Office for a brief Counseling session by serving the Call Slip, intended for said student, to the Class Adviser.
- 3.9 Student may voluntary submit himself/herself for counseling by waking in directly, without any call slip or referral by walking in directly, without any call slip to the Guidance Office. The Guidance Counselor/Advocate may accommodate the walk-in student/s at once or set an appointment for Counseling/coaching.

Smart Ways To Keep Yourself Safe

BODY

You are the boss of your body. No one is allowed to hurt your body in any way.

PRIVATE BODY PARTS

The parts of your body covered by your undergarments are your very own private body parts. It is never alright for someone to touch, talk about or look at your private body parts except for health reasons. TOUCHING RULE 1

GIFTS

Sometimes people try and trick you by giving you sweets, money or gifts to break the touching rules. Refuse to do what they ask and don't take gifts they give you.

HUGS

Hugs and kisses are nice, especially from people you like. But if they make you feel scared, confused or uncomfortable, make sure you tell a grown up you trust. TOUCHING RULE 2

SECRET

Secrets about touching are not okay. Always tell your trusted adult if someone tries to break the touching rules and asks you to keep it a secret.

NO

If someone tries to break the touching rules, it is very important to learn to use this word. Use loudly. (NO)

SHOUT AND GET AWAY

Practice shouting - because that's what you need to do when someone is trying to touch you in a way which makes you feel confused, scared or uncomfortable.

TELL

If you are worried, confused or scared by the way someone touches you or makes you feel, tell a grown up you trust about it. If the person you tell doesn't help you then tell someone else. And keep on telling till you get the help you need. Some examples of grown ups you may want to tell are parents, teachers or grandparents.

IT IS NEVER YOUR FAULT

Always remember, it is never your fault when someone breaks the touching rules.

Parents have criminal liability relative to their minor children who are driving without driver's license. The parent/guardian may be liable under the following laws:

a. Presidential Decree No 603 (The Youth and Welfare Code) Article 59 Paragraph 12 provides:

Paragraph 12. Allows or requires the child to drive without license or with a license which the parent known to have been illegally procured. If the motor vehicle driven by the child belongs to the parent, it shall be presumed that he permitted or ordered the child to drive.

b. Republic Act No 7610 (Special Protection of Children Against Abuse, Exploitation and Discrimination Act), if it appears that the parents are exploiting and the children by requiring the minor child to work as their driver, which prejudicial to the child's normal development.

PD 603 Article 59. Crimes - Criminal Liability shall attach to any parent who: Xxx"Emphasis is supplied (Art. 59(12) PD 603)

As Clearly stated above, the law considers the act of allowing a child without a driver's license to drive as a form of child abuse since it endangers the safety of the child by unnecessarily exposing him/her to potential road and vehicular hazards. The law imposes a penalty prison mayor in its maximum period that is equivalent to six (6) years and one (1) day to eight (8) years of imprisonment for those who will be proven guilty of this crime (Section 10 (a) Article IV, RA 7610). Thus, it is clear that the act of letting a minor drive a vehicle without a driver's license is indeed a form of child abuse that is penalized by law.
