**SUBJECT: POSSIBLE REASONS FOR THE LOW TURNOUT OF
ENROLLMENT FOR SCHOOL YEAR 2023-2024 AS
COMPARED TO SCHOOL YEAR 2022-2023**

DATE: 25 November 2023

As of 25 November 2023, we already have a total enrollment of **27,396,676** million learners for all sectors (public, private, and SLUCs offering basic education) including those in the Alternative Learning System (ALS), and pending data for SY 2023-2024.

Although the Learner Information System (LIS) Beginning of School Year (BOSY) 2023-2024 encoding was extended from the original 31 October 2023 deadline still the enrollment figures remain low compared to the reported official enrollment for School Year 2022-2023 of **28,484,730** learners. This is translated into a negative variance of **more than 1 million learners**.

Per enrollment data generated from the system, most of the large decrease are in the public schools which accounted for a total of **917,016**. For the Junior High School alone, the negative variance is 734,202 learners.

In this regard, kindly provide some possible reasons on the low turnout of enrollment this School Year in your respective jurisdictions, as well of the identified schools included in the list to be sent through email. Target Date: **on or before 01 December 2023** through the email address ps.emisd@deped.gov.ph.

For further clarifications or questions, please contact the PS-EMISD through the above-mentioned email address.

Thank you very much.
